To whom it may concern:

This letter is to refer Videocom Systems that have installed 32 security cameras and 150 intercom units in our building at - The Lafayette.

The CCTV and Intercom Systems were very professionally installed and the expert installers worked very neatly throughout the building. The equipment installed is of the highest quality. The camera pictures are extremely clear and the two DVRs installed are extremely easy to operate.

Also, the Intercom was done in a timely manner as planned with the tenants. The audio units have a very clear sound and you don't need to raise your voice when talking either with the doorman or with the visitors.

Both systems equipment blend in perfectly and elevated the looks of our building. Both tenants and Management are very satisfied with the work and we look further to extend our business to Videocom.

We highly recommend Videocom for any system installation and you can come and visit our building to see the systems or call me for references at 917-907-1249.

Sincerely,

A handwritten signature in black ink that reads "Jay Miranda". The signature is written in a cursive, flowing style.
